# Good Oral Health Leads to Good Overall Health

## How to help your sick child with the flu or cold to keep their mouth healthy!

Maintain your child's daily oral health care routine even when sick

- Brush two times a day
- Floss at night or morning
- New brush when feeling better

### How your mouth is hurt when you are sick:

- Nasal sprays, cough and cold medicine can make your mouth dry
- Vomit can hurt your teeth
- Germs from your cough and mouth can make the rest of your body & others sick

#### How to Help with Dry Mouth!

- Drink Lots of Water!
- Swish and spit with water after vomiting
- Use a Humidifier or Vaporizer to help the dry air in the winter to stop dry mouth
- If your child is old enough for cough drops sugarless cough drops (Like Xylitol) are recommended.

### Hydrate, Hydrate, Hydrate when Sick!

- Water keeps child stay hydrated and washes away cavity-causing acids.
- If drinks below are recommended by your physician- follow with water to wash away sugars on teeth.
  - Pedialyte- replace fluids and minerals
  - Sugar-free sports drinks can give child an energy boost
  - o Low-sugar juice can be consumed in moderation
